

### Product Features

- Strong kick turns – all-in-one design generates maximum return
- Athlete safety features – no openings or seams to trap fingers or toes
- No trampoline effect – no need for continuous buoyancy
- 40 years of experience – building fiberglass bulkheads since 1965
- No tracks, no wheels; inflates in minutes and moves easily

### Construction Details

- The ONLY one-piece, monolithic fiberglass bulkhead on the market
- 100% flow-thru cutouts – all wave action passes through at the waterline
- Superior fabrication – the only pool bulkhead warranted for 25 years
- Stark bulkheads can be fitted with timing systems, starting platforms, water polo goals and other stanchion anchors
- Fitted with solid, corrosion-resistant 316 stainless steel lane line anchors
- Since each bulkhead is custom made, colors can be matched to existing pool
